# PROGLOVE PUTS PEOPLE FIRST FOR A SAFE, HEALTHY, AND HYPER-EFFICIENT WORKPLACE

CHICAGO, US

COVENTRY, UK

MUNICH, GERMANY

BELGRADE, SERBIA

## STAYING TRUE TO OUR CORE VALUES

The workforce is at the center of what we do.

Where **human-centered** design meets German engineering.

We create **solutions** with **ergonomic** hardware, integrated software and services.

## ORIGIN

Silicon Valley competition 2014  
Founders from **BMW + IDEO**

## GLOBAL COMPANY

250+ employees servicing North America, Europe and APAC  
50+ countries  
2,000+ customers  
500+ partners

## GERMAN DESIGN

Integrated development  
Global manufacturing

## KEY PEOPLER

**Stefan Lampa**  
CHIEF EXECUTIVE OFFICER

**Pierre Mikaelsson**  
CHIEF PRODUCT OFFICER

**Charles Jackson**  
VICE PRESIDENT AMERICAS

**Franziska Terzer**  
DIRECTOR SALES EMEA

**Ken Allen**  
CHAIRMAN OF THE BOARD

# THE PROGLOVE SOLUTION COVERS THE ENTIRE SUPPLY CHAIN

## STORAGE LAYOUT VISUALIZATION

Efficiency

Real-time tracking of device and material movement without complex integrations or specialized IT projects for continuous process optimization

## MOVEMENT MONITORING

Health & Safety

Monitor and detect repetitive and complicated motions early with real-time movement detection to avoid strains and injuries.

## PHOTO DOCUMENTATION

Efficiency

Document outgoing palettes or broken boxes without interrupting workflows.

## ADVANCED SCANNING

Efficiency

Increase efficiency by capturing many items in a single scan and scanning the most complex labels without errors in one go with **Multiscan** and **Continuous Scan** – increasing capture speed by 5x

## WAREHOUSE 360

Efficiency

Health & Safety

Combining scanner data, real-time location and movement detection for a complete process overview revealing optimization options.

## LOST & FOUND

Efficiency

24/7 asset tracking to ensure that devices stay where they are required and operationally ready at all times.

## PROCESS ANALYTICS

Efficiency

Understand process usage & optimize efficiency between workstations with simple insights.

## ZONE GUIDE

Health & Safety

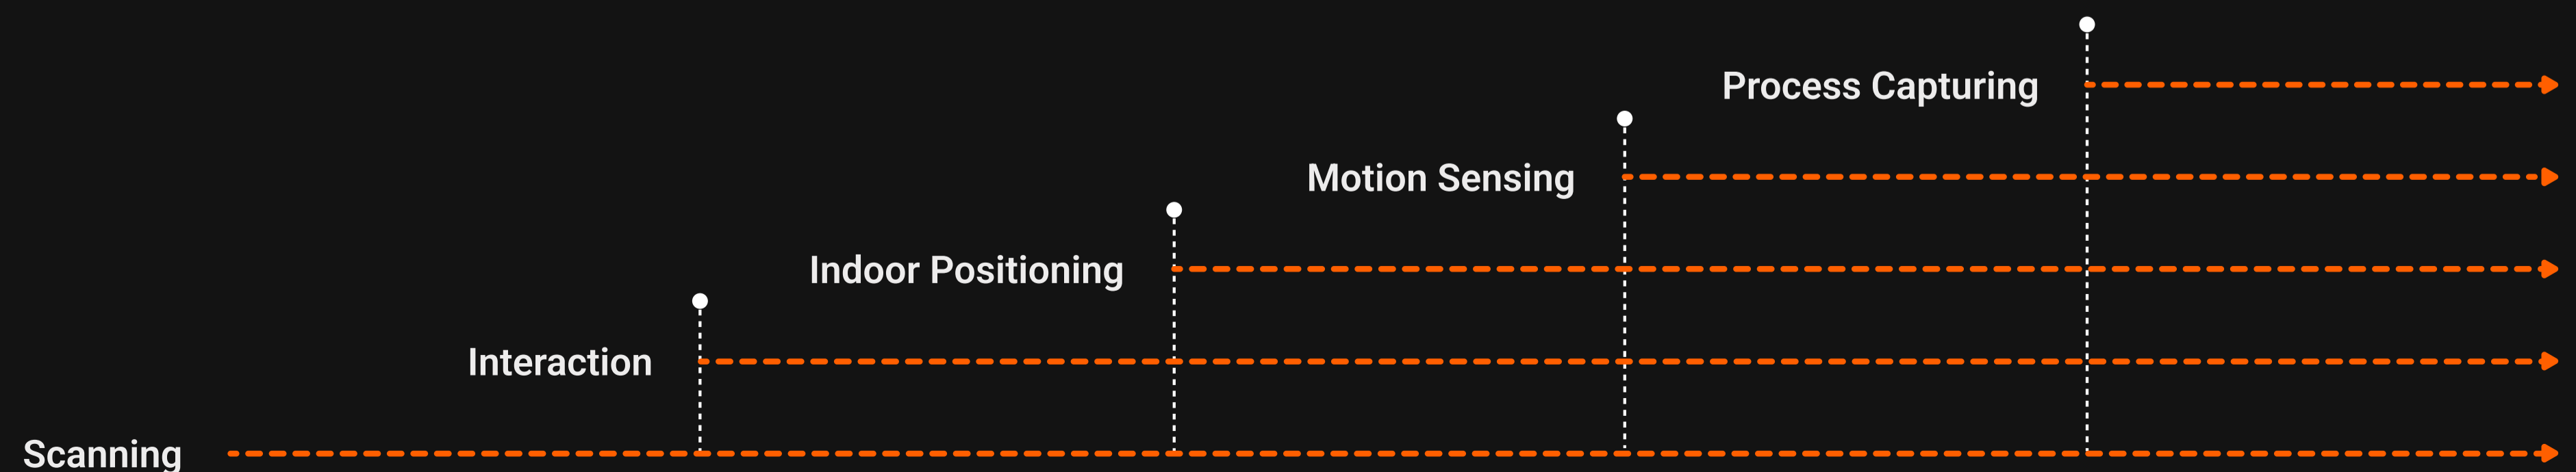

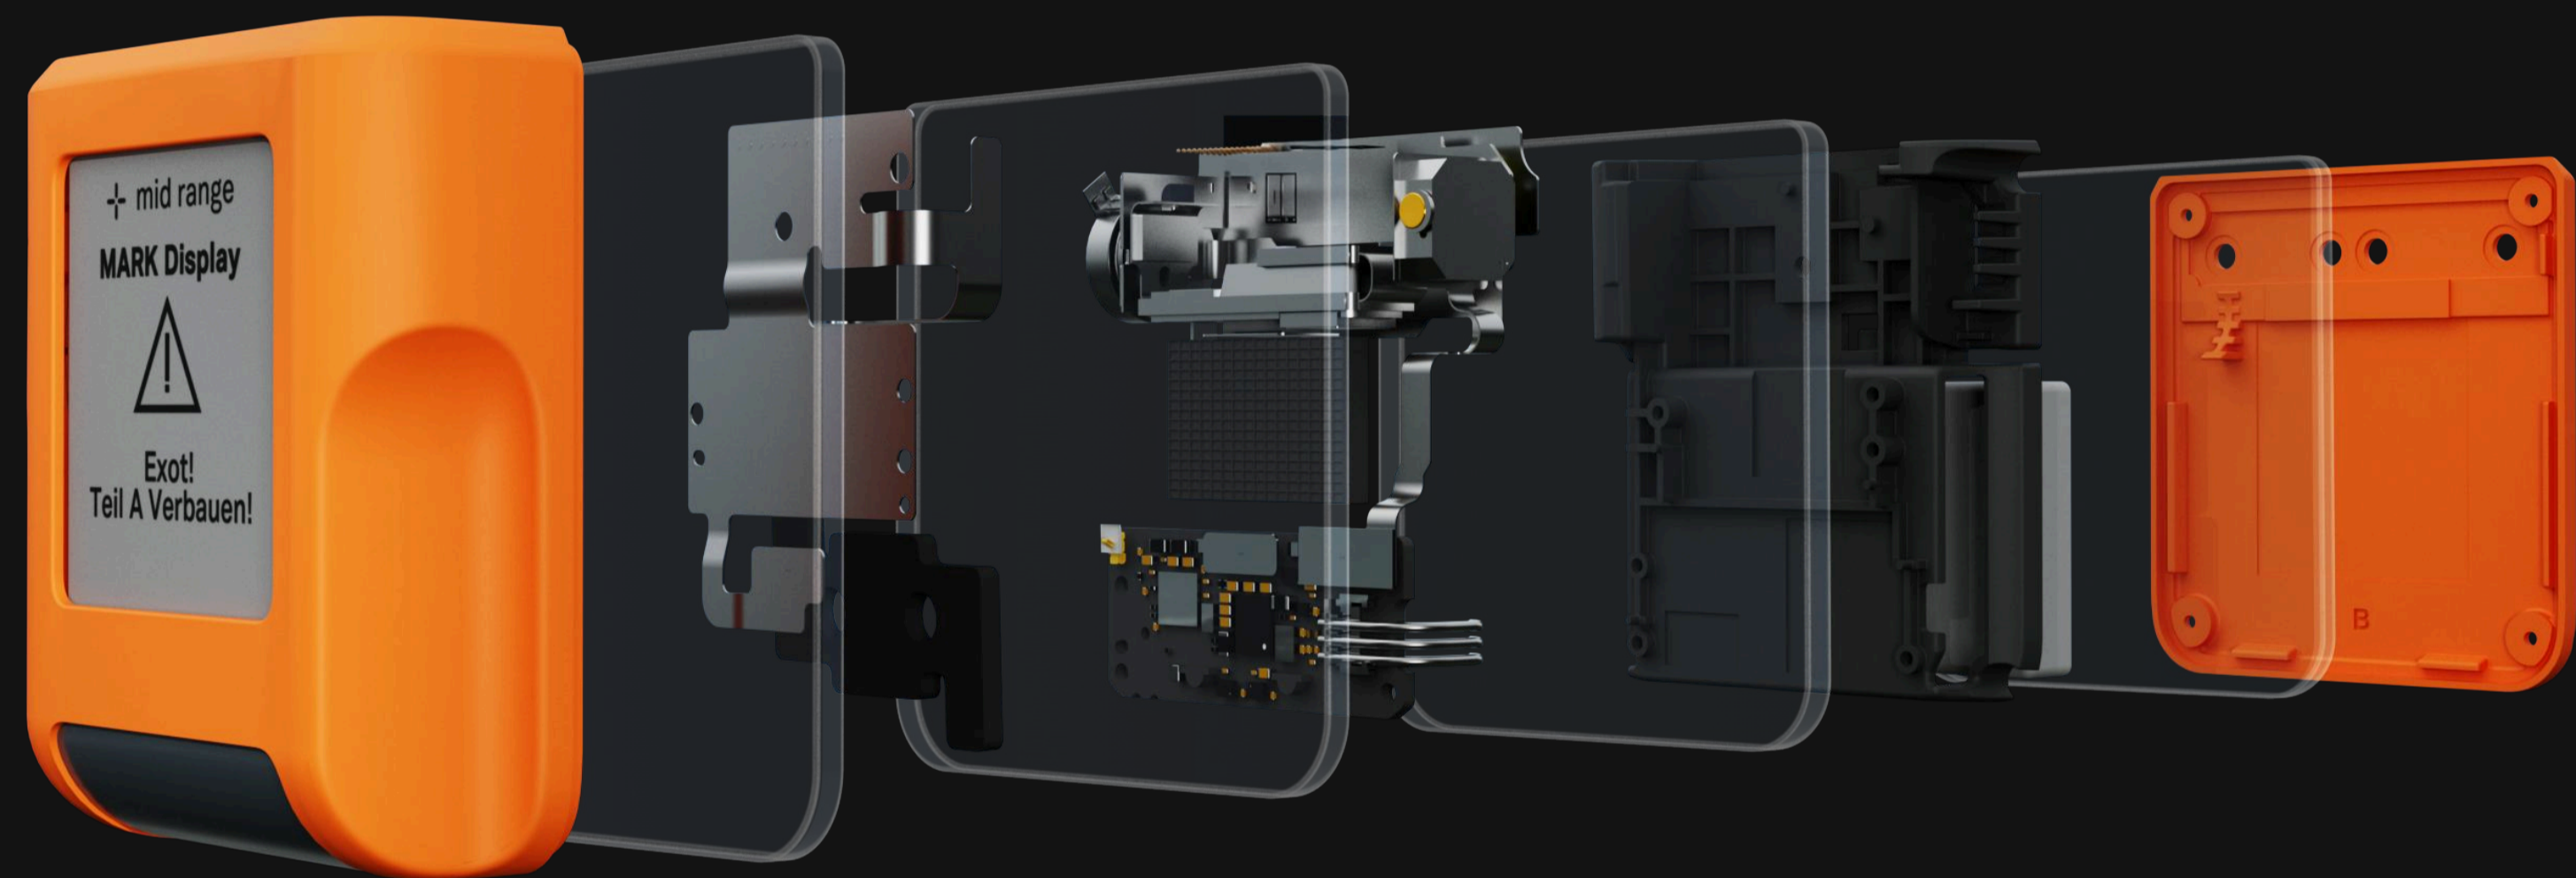

Reduce accidents and lower process errors by defining areas for specific use cases and forbidding entry into others.

# ALL DATA POINTS ARE CAPTURED BY...

ProGlove provides the smarter wearable scanner solution that delivers a continual stream of worker-driven productivity gains. We are on a mission - to disrupt the barcode scanning industry by bringing transformational value to warehouse and distribution operations. Unlike others, we are focusing on human workers.

ProGlove brings speed, accuracy, and ergonomics to workers as they perform the task that is essential to warehouse success: the barcode scan. Our wearable technology is interactive, easy to use, and understand. Our human-powered approach empowers the workforce with more efficient workflows.

PROGLOVE

## Revolutionizing Productivity in Logistics and Warehousing

Our focus is on the human worker experience and on scanner device performance. We are your partner of choice for logistics and transportation warehouses and distribution centers. The speed, accuracy, and ergonomics of our wearables has boosted productivity for customers by 20% or more. Our vision, our commitment to bringing you the data from the shopfloor, will lead to a smarter, more productive, more predictably profitable future.

- An optimized worker experience with less effort, more scanning comfort and effective scanners, with less effort, and additional worker-driven data guidance with insights you will love.

- Maximized worker uptime with visibility into real-time device performance and readiness for more effective device management.

- More from the team with the fastest, simplest route to worker-based productivity insights. Drive and monitor process improvements across the shop floor without reprogramming your WMS.

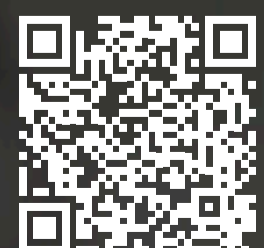

A trusted innovative, responsive partner that pioneered the wearable category.

**BookDepot** 

"ProGlove has truly made a positive impact on our business, elevating our speed, efficiency, and accuracy. With this technology, we can carry out our mission of enchanting the mind one book at a time with even greater precision. Its implementation not only enables us to achieve our goals more efficiently but also reinforces our commitment to delivering top-quality service to our valued customers."

**Kevin**  
Operations Manager
